I am an experienced full-stack software engineer especially interested in building magical mobile experiences and shipping reliable web applications that make a positive difference in the world.

Work Experience

Mid Fullstack Software Engineer **MVST.** **April 2024–Present**
Remote-Barcelona, Spain

- Create new features and maintain a web-app that controls 40+ job portals in Germany.
- Develop a single CMS for elaboration and deployment of the widgets.
- Supervising, mentoring and onboarding Juniors onto the project with full responsibility.
- Worked on implementing cache on the Nextjs app to reduce loading times by 50% and even more in some cases.
- Frontend Development using Nextjs, Typescript, Redux Toolkit, Nextboost and supporting BE and CMS development using C# and .NET (Orchard Core CMS).

Junior Fullstack Software Engineer **MVST.** **March 2022–2024**
Remote-Barcelona, Spain

- Developed and launched 3 mobile apps to production which are currently being used by more than 200k users.
- Worked alone on development of complete rebranding of one of the apps and added new features, handled the development, testing and deployment single-handedly.
- Tech used: React Native with Typescript, Zustand for State management, supported other devs on another app development with Flutter and developed BE for these mobile apps using NestJS, Strapi and Storyblok as CMS.
- Started working on a Nextjs project for development of job portals and worked my way up to Mid Level within 8 months.

Jr Developer (Practical Experience) **Assembler Institute** **August 2021 - March 2022**
Barcelona, Spain

- Masters program which translates to real life experience developing more than 30 projects using Technologies based on Javascript (MERN stack), php and mySQL using Scrum Methodologies.
- Following were the projects I worked on:
    - Strings - Music Streaming App
    - Real Estate App - Redux and Laravel
    - CRUD Employee Management System with PHP (MVC and OOP)
    - REST APIs with Nodejs, ExpressJs and MongoDB

Education and Certifications

- **Masters in Software Development,** Assembler Institute of Technology, Barcelona **May 2021 - March 2022**
- **Bachillerato,** Institute Marti i Franques, Tarragona **Sept 2013 - June 2015**
